

SPRING 2021

Dear Friends of ASAP,

Spring is here and ASAP is in full-swing collecting, refurbishing, and packing your donated tools. Our volunteers and donors drive us into the renewed season with renewed energy, passion, and purpose; thank you for all you do!

New this Season

Christmas in February and a ProHealth Physical Therapy & Pilates Workday –

February might be a little early to plan for the Christmas season, but we didn't want to miss the opportunity to host the lovely ladies (and their families) of ProHealth Physical Therapy & Pilates Studio and recording a holiday video for ASAP. Not only did we get the group to sing on camera, but they also refinished and packed tools, set-up shelves for the workshop, and helped organize our workspaces.

Volunteer Day and Christmas Video
Thanks to the families of the lovely ladies
at-Pro Health Physical Therapy & Pilates

Hardworking students from the
NHS from Trinity Christian School
make the world a better place

NHS of Trinity Helps Us Pack for Peru The National Honor Society of Trinity Christian School has made prepping our containers for Peru so much easier. These hardworking students have made regular visits to refinish tools, carefully pack equipment, and inventory items ready for shipment. Their smiles and positivity are contagious and only outshined by their dedication and work ethic. We would not be able to send out your donated tools without the help of our volunteers and are eternally grateful for the groups of students like these who make ASAP part of their day.

Looking Forward

ASAP's New Website by UWG Student – ASAPEmpowers.com is getting a new look thanks to Evangelina Perez of the University of West Georgia's Small Project Program. The program matches students and organizations for short-term projects allowing the student to gain real-world experience and organizations to benefit from these talented young minds. Ms. Perez has been working hard to update and streamline our website and we are thankful for her diligence and talent!

Father's Day Tool Drives – Father's Day is a great time to replace Dad's old tools with something a little shinier... but don't let that old equipment go to waste! ASAP is happy to take your used tools and turn them into a new start for a young trade school graduate. Be on the lookout in Fayette and Coweta Counties for local tool drives this season or contact us to arrange pick-up.

Thank You

We are thankful to our community for the time and effort they give us in-person, at home, and online! While we prepare our shipment to Peru, this help becomes imperative to meeting our goals of getting your tools into the right hands. The graduates who receive your gifts are grateful and we are humbled by your generosity each and every day. Thank you for helping change lives, one tool at a time.

Very best wishes for a warm and happy Spring,

Angela Carrasco
Communications Director
